DEER STANDS

Deer Stand Permit. The Tribal Police Division of Fish and Wildlife is authorized to issue a deer stand permit which shall be required by any person who hunts on tribal owned land and who wishes to erect and/or maintain a deer stand on tribal owned land.

Definitions: Deer Stand. A deer stand may be one of the following:

- ◆ Ground Blind - Any structure that is constructed or placed on the ground, including structures elevated on posts or legs, for the purpose of sheltering or concealing person(s) engaged in hunting, photographing, or observing wildlife.
- ◆ Tree Stand - Any structure that is constructed or placed in a tree for the purpose of supporting and/or concealing person(s) engaged in hunting, photographing, or observing wildlife.

GENERAL RULES

Any ground blind or tree stand placed on tribal owned land must have attached to it the tag provided by the Tribal Police Division of Fish and Wildlife.

- ◆ Driving, screwing, or otherwise placing nails, screws, lag bolts, spikes, or any other metal objects into trees located on tribal owned lands, for the purpose of constructing a ground blind or tree stand, is prohibited and unlawful.

GENERAL RULES CONTINUED

- ◆ Tree stands placed into trees located on tribal owned lands must be portable, removable, and not damaging to the tree that they are placed into.
- ◆ Tribal members may leave a tree stand in place for no more than one (1) year.
- ◆ Sponsored non-members and non-Indians may leave a tree stand in place no longer than the period of sponsorship.

GROUND BLINDS

A ground blind that is constructed of natural materials, untreated sawn lumber, untreated manufactured wood products similar to plywood or wood flakeboard, cloth made of natural fibers, and cord or rope made of natural fibers, and whose exterior dimensions do not exceed four feet by eight feet may be placed on tribal owned lands, but must be completely removed from those lands when the owner of that blind no longer intends to use it.

Use of any plastic, fiberglass, tar paper, roofing materials, carpeting, glass, wood that is painted and/or treated with preservatives, or other man-made materials, in the construction of ground blinds placed on tribal owned lands is prohibited, and unlawful, except when done in compliance with this section.

Ground blinds that contain material prohibited by this section and that are designed to be portable may be placed on tribal owned lands if removed from those lands on the same day they are placed on them, except during the time period of September 1st through December 31st when they may be left in place without daily removal.

GROUND BLINDS CONTINUED

Steel nails and fasteners may be used in the construction of ground blinds on tribal owned lands except that placing those nails or fasteners into trees is prohibited and unlawful. Use of stainless steel, aluminum, copper, or other non-ferrous metallic fasteners and wire in the construction of ground blinds placed on tribal owned lands except for those used in compliance with this section is prohibited and unlawful.

All materials and objects deposited on tribal owned lands by persons utilizing tree stands, and ground blinds shall be completely removed from those tribal owned lands in compliance with this section.

All ground blinds and tree stands placed and/or constructed on tribal owned lands previous to October 15th, must be in compliance with this section or completely removed from the tribal owned lands before November 30th.

The Tribal Police Division of Fish and Wildlife is authorized, and directed to remove, and/or destroy ground blinds and tree stands placed on tribal owned lands in violation of these regulations.
