

All Nations Breath of Life (ANBL) is a culturally tailored group-based quit smoking program for American Indians. The group has many components, such as, group sessions, individual sessions over the telephone, an education curriculum, pharmacotherapy, and incentives.

Facilitators are a **very important** part of the ANBL program. We are currently looking for Facilitators from our community. They do not need to have degrees in counseling, rather it is important that they are respected in the community, have good interpersonal skills and willing to be trained. ANBL will train facilitators and provide support. For more information on becoming a facilitator please contact Edie Wamego, PBP BH at 785-966-8355 or [EdithWamego@pbpnation.org](mailto:EdithWamego@pbpnation.org)

**Group is to form soon!! Look for upcoming information!!**
