Some brief information about the Vocational Rehabilitation (VR) program might help you decide whether to apply for services.

- PBPN VR serves people with any type of permanent physical, intellectual or mental disability.
- PBPN VR is an employment program. The purpose of PBPN VR is to provide culturally relevant services to assist Native Americans in obtaining or maintaining employment. We may be able to provide services to help you keep the job you already have if your disability is causing difficulties for you at work.
- You must apply for services and be found eligible in order to receive services. After you apply, our staff will determine if you have a disability that is a significant impediment to employment, and if you require VR services to become employed. You may be asked to provide additional information about your disability, medical services and employment history to help determine if you are eligible.
- If you are eligible for services, a counselor will work with you to develop an Individual Plan for Employment (IPE). The IPE will list your employment goal and the services you will receive. The counselor will help you look at your employment options so you can make informed choices about the type of work you want to seek.
- Services are individualized according to each eligible person's unique rehabilitation needs, disability and employment goal.
- You may be asked to help pay for some services if it is determined that you or your family have the financial resources to do so.

If you have a disability and you want to work, start your road to employment today by completing this application for VR services.
